

Field of Dreams RC Club Inc. Flying Field Safety Rules

Failure to observe these rules can seriously affect the outcome of any claims made against your AMA Liability Insurance.

1. No person shall be allowed to fly at Field of Dreams R/C Club without a current AMA license.
2. All persons wishing to fly at Field of Dreams are required to be club members, with the following exceptions:
 - a. Guests may fly six times a year as long as they have a current AMA card and are accompanied by a current FOD member. Open house fly-ins & Contests, where all clubs and AMA pilots are invited, will not count against guest flyer's number of times they can fly here.
 - b. Persons with an AMA chartered club membership from out of town are welcome to fly with us whenever they are in town.
3. All FOD club members are expected to be supportive and helpful to our guests.
4. Before flying please call the Roberts Field Tower at (541) 548-2574 to let them know the field is active.
5. All pilots and models must adhere to the current OFFICIAL AMA SAFETY CODE.
6. DO NOT TURN ON YOUR TRANSMITTER without the corresponding Frequency Pin. Place your current AMA card in the slot provided when you take your Frequency Pin.
7. FLY ONLY BEYOND THE DEADLINE, an invisible line down the center of the runway that extends to the horizon in both directions, regardless of altitude. This Deadline was set as a condition of our lease agreement with Redmond Parks & Recreation. Failure to comply could result in the complete loss of flying privileges for the pilot and FOD. Pilots who ignore this Deadline are in violation of the posted AMA Safety Code and may be forced to relinquish their Frequency Pin with these two exceptions.
 - (1) A. Student helicopter pilots may use the Control Line Circle to practice low level hovering.
 - (2) Fixed wing aircraft temporarily out of the pilots control.
8. Pilots must remain behind either the orange barricade or a Field station when flying.
9. All transmitters shall be gold-stickered and/or certified as narrow-band. Use of wide-band transmitters is not permitted. Ham operators must have copy of Ham license with them per FCC regulations.
10. Spectators are welcome and encouraged and must remain outside the areas designated for pilots only.
11. Individuals under 16 years of age must be accompanied by a parent or acting guardian at all times.
12. No small children are allowed at or near the flight line.
13. All animals shall be on a leash.
14. Pick up your broken props, and any other plane parts; they play havoc with the mower.

Camping Rules

1. All campers need to keep their area clean.
2. All generators need to be turned off by 10:00 pm and can be started up again at 7:00 am. This is just to be considerate of the other campers.
3. Do not drive on the sprinkler heads in the grass circle.
4. There are no hookups.
